

School Presentation

Updated 11/4/2019

Background

Stakeholder and community engagement surfaced a strong desire to include a mechanism for applicants to communicate investment proposals in addition to the written application. The inclusion of School Presentations as part of the RFI application evaluation process will allow applicants the opportunity to speak to their unique context, express their needs, state their goals for FEPP Levy funds, and highlight their strategy to meet those goals. The School Presentation also offers an opportunity for RFI Review Panel members to pose any clarifying questions that arose following their review of the applicant’s written application.

Format

Timeframe	School Presentations will take place in January 2020
Delivery	Schools may send up to 3 participants for their Levy team to delivery the presentation and engage in the question/answer period
Presentation	School applicants will be asked to provide a ten-minute verbal presentation that includes: <ul style="list-style-type: none"> ▪ An overview of their school’s RFI application and proposal for using Levy funds ▪ An explanation of how their proposal fits within school-wide efforts to close opportunity gaps and increase college and career readiness ▪ An explanation of how partnerships enhance school’s overall programming
Q&A	Review Panelists will then have five minutes to pose clarifying questions based on what was presented and their review of written applications.

Scoring

Points	Presentation Standards
5	<ul style="list-style-type: none"> ▪ Provides overview of application and proposed focus for Levy funds ▪ Provides explanation of proposal alignment with school initiatives ▪ Provides explanation of role of partners/partnerships
5	<ul style="list-style-type: none"> ▪ Remains consistent with written application ▪ Presents a cohesive proposal to close opportunity gaps and increase college and career readiness ▪ Offers clarity on questions asked
10	TOTAL
